PROFILE

I'm a **Front-End Developer** with a passion for building engaging, responsive, and accessible websites and apps.

With a background in managing and growing a small business, I bring with me a strong ability to problem-solve on the fly while adapting to changing work environments, an eye for design, and experience building connections with a diverse range of clients and coworkers.

SKILLS

HTML & CSS | JavaScript | React | APIs | Debugging | Version Control | Responsive Design
Creative Problem Solver | Analytical | Adaptable | Curious | Learner

EDUCATION & COURSES

REACT - COMPLETE GUIDE
Udemy | 2022

Codecademy | 2022

INTERMEDIATE JAVASCRIPT
Codecademy | 2021

RECENT PROJECTS

Sun Run | React, JS, CSS | *sun-run.netlify.app*

This React app was built as a team, and required planning and organizing multiple components and state into a single-page app. Involved used of geolocation and multiple APIs.

CoinWatch | React, JS, CSS | *coin-watch-app.netlify.app*

A single-page React app that uses several API calls to display current cryptocurrency prices as well as a newsfeed.

Trivia Night | HTML, SASS/CSS, JS | *trivia-app-sr.netlify.app*

This project is a trivia game that uses a public API to provide the user with trivia questions based on the category they've selected, built in vanilla JavaScript.

EMPLOYMENT

MANAGER | Guff, Toronto | 2008 – 2022

o Led full-scale update and redesign of company website, requiring conversion of our POS systems from existing platforms to Shopify while including custom code integrations, resulting in a 15% increase in sales over previous best year.

o Ensured high levels of customer satisfaction through excellent service.

o Designed workflows to efficiently manage our intake and processing of new products, including marketing and & promotions.

o Planned and built out a professional photo studio, achieving a higher quality web presence.
